PETITION FOR CORRECTION OF INVENTORSHIP IN PATENT APPLICATION,  
PURSUANT TO 37 C.F.R. § 1.48(a)

Mail Stop Petition  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

NEEDLE & ROSENBERG, P.C.  
Customer No. 36339

Sir:

This application is a continuation application of U.S. Application No. 09/763,260, now U.S. Patent No. 6,685,944, issued February 3, 2004, in which a Petition for Correction of Inventorship in Patent Application, pursuant to 37 C.F.R. § 1.48(a) was granted May 17, 2002. Because the inventorship of the pending application is the same as the inventorship in U.S. Patent No. 6,685,944, applicants respectfully request that the inventorship be corrected accordingly.

Therefore, pursuant to 37 C.F.R. § 1.48(a), applicants hereby petition for correction of inventorship of the above-captioned patent application to delete Charles D. Pendleton and

ATTORNEY DOCKET NO. 14014.0347U3  
APPLICATION NO. 10/770,117

Tatsumi Arichi as co-inventors. The inventorship originally set forth in the application was in error in naming Mr. Pendleton and Dr. Arichi, without deceptive intent on the part of the named inventors, nor on the part of any other party or parties.

The inventors of the present invention are Jay A. Berzofsky, Pablo Sarobe, Stephen M. Feinstone and Marian E. Major.

This petition is accompanied by a copy of the documents filed with the United States Patent and Trademark Office (PTO) in Application No. 09/763,260 and a copy of the documents mailed by the PTO to applicants in Application No. 09/763,260. These documents include the following:

- (1) a Petition for Correction of Inventorship in Patent Application Pursuant to 37 C.F.R. § 1.48(a), dated October 19, 2001, accompanied by:
  - (a) a statement from each person being deleted as an inventor that the error in inventorship occurred without deceptive intention on his part;
  - (b) a Declaration executed by the actual inventors pursuant to 37 C.F.R. § 1.63;
  - (c) the written consent of the assignee, The Government of the United States of America, as Represented by the Secretary, Department of Health and Human Services, National Institutes of Health, Office of Technology Transfer, as required under 37 C.F.R. § 1.48(a);
- (2) a Decision on Request Under 37 C.F.R. § 1.497(d), dated February 20, 2002;
- (3) a Renewed Petition for Correction of Inventorship in Patent Application Pursuant to 37 C.F.R. § 1.497(d), dated April 17, 2002, accompanied by:

ATTORNEY DOCKET NO. 14014.0347U3  
APPLICATION NO. 10/770,117

to 37 C.F.R. § 1.497(d), dated April 17, 2002, accompanied by:

- (a) the Consent of Assignee; and
- (4) a Decision on Request Under 37 C.F.R. § 1.497(d), dated May 17, 2002, granting the petition.

A Credit Card Payment Form PTO-2038 authorizing payment in the amount of \$130.00 (fee for Petition under 37 C.F.R. § 1.17(i)) is enclosed. This amount is believed to be correct; however, the Commissioner is hereby authorized to charge any additional fees which may be required, or credit any overpayment to Deposit Account No. 14-0629.

Respectfully submitted,

DECISION

ON PETITION UNDER

37 CFR 1.497(d)

This is a decision on "Petition For Correction of Inventorship In Patent Application, Pursuant to 37 C.F.R. §1.48(a)," filed on 19 October 2001. The petition under 37 CFR 1.48(a) is being treated as a petition under 37 CFR 1.497(d).

### BACKGROUND

On 17 August 1999, applicants filed international application PCT/US99/18674, which claimed a priority date of 21 August 1998. A copy of the international application was communicated to the United States Patent and Trademark Office (USPTO) from the International Bureau on 02 March 2000. On 17 February 2000, applicants filed a demand for international preliminary examination which elected the United States, prior to nineteen months from the priority date. The deadline for entry into the national stage in the United States was midnight 21 February 2001.

On 20 February 2001, applicants filed a submission for entry into the national stage in the United States which was accompanied by, *inter alia*, the U.S. Basic National Fee and a declaration executed by five inventors.

On 21 May 2001, the Office mailed, *inter alia*, a Notification of Missing Requirements (Form PCT/DO/EO/905) and a Notification of a Defective Oath or Declaration (Form PCT/DO/EO/917) indicating, *inter alia*, that the declaration was defective because it did not properly identify the inventors.

On 19 October 2001, applicants filed "Response to Notification of Missing Requirements," including, *inter alia*, the instant petition and a declaration executed by four inventors.

### DISCUSSION

Under 37 CFR 1.41(a)(4), the inventors who submitted an application under §1.494 or §1.495 are the inventors in the international application designating the United States. The inventors in the international application include the inventors named upon filing of the international application of the international application or resulting from any changes made under Rule 92*bis* in the international stage. The record does not reflect any such requests under Rule 92*bis* during the international stage.

The inventors in the international application are Jay A. Berzofsky, Pablo Sarobe, C. David Pendleton, Stephen M. Feinstone, Tatsumi Arichi, and Marian Major. Applicants state that "the inventorship originally set forth in the application was in error in naming Mr. Pendleton and Dr. Arichi, without deceptive intent on the part of the named inventors, nor on the part of any other party or parties."

A petition under 37 CFR 1.497(d) requires: (1) a statement from each person being added as an inventor and from each person being deleted as an inventor that any error in inventorship in the international application occurred without deceptive intention on his or her part; (2) the processing fee set forth in §1.17(i); and (3) the written consent of the assignee, if an original named inventor has executed an assignment.

Items (1) and (2) have been met. (1) Applicants provided letters signed by Charles D. Pendleton and Tatsumi Arichi indicating that the error in each being named on the international application occurred without deceptive intention. (2) The processing fee set forth in §1.17(i) has been paid.

As to item (3), the written consent of assignee the United States of America is ineffective as signed by Robert Benson. First, applicants must furnish proof that the United States government is the assignee. Second, Dr. Benson's title of "Supervisor" is not one that sets him forth as an officer of the assigned and he is not presumed to have authority to sign the submission on behalf of the assignee. MPEP §324. The submission can either state that the signor is authorized to act on behalf of the assignee or "the submission may be signed by a person empowered by an organizational resolution ... to sign the submission on behalf of the assignee, if a copy of the resolution is, or was previously, submitted in the record." MPEP §324. Evidence of Dr. Benson's authority to sign is required.

### CONCLUSION

For the above reasons, applicant's petition under 37 CFR 1.497(d) is **DISMISSED**, without prejudice.

If reconsideration on the merits of this petition is desired, a proper response must be filed within TWO (2) MONTHS from the mail date of this decision. Failure to timely file the proper

Sir:

This is responsive to the February 20, 2002 Decision on Petition Under 37 C.F.R. §1.497(d) which was issued regarding the above-referenced patent application. Enclosed herewith are a copy of the Decision, a substitute written consent of the assignee, and a copy of the Notice of Recordation of Assignment (including the Assignment transmittal and the executed Assignment) by which the inventors have assigned their rights to the invention to The Government of the United States of America, as represented by the Secretary, Department of Health and Human Services, National Institutes of Health, Office of Technology Transfer.

REMARKS

A petition to correct inventorship regarding the above-referenced patent application was filed on October 19, 2001. On February 20, 2002, a Decision on Petition under 37 C.F.R. § 1.497(d) was issued, dismissing applicants' petition. The Decision noted that a petition under 37 C.F.R. § 1.497(d) requires (1) a statement from each person being added as an inventor and from

ATTORNEY DOCKET NO. 14014.0347U2  
PATENT

each person being deleted as an inventor that an error in inventorship in the international application occurred without deceptive intention on his or her part; (2) the processing fee set forth in 37 C.F.R. § 1.17(i); and (3) the written consent of the assignee, if an original named inventor has executed an assignment.

The Decision acknowledges that items (1) and (2) have been met. However, item (3), the written consent of the assignee is deemed ineffective. The Decision states that applicants must furnish proof that the United States Government is the assignee and show that the person signing the consent has the authority to sign the submission on behalf of the assignee. MPEP § 324.

On March 27, 2002, applicants' attorney telephoned Legal Administrator Ms. Erin Pender and confirmed that submitting the following items would correct the deficiencies in the October 19, 2001 petition and satisfy the remaining requirements under 37 C.F.R. § 1.47(d):

- (1) A copy of the Notice of Recordation of Assignment, Assignment Transmittal, and an executed Assignment regarding the pending application;
- (2) A copy of the Decision on Petition Under 37 C.F.R. § 1.47(d); and
- (3) A substitute written consent of the assignee, The Government of the United States of America, as Represented by the Secretary, Department of Health and Human Services, National Institutes of Health, Office of Technology Transfer, including a statement that the signor is authorized to act on behalf of the assignee.

Applicants herewith submit the three (3) aforementioned documents and respectfully request reconsideration and allowance of the previously submitted Petition Under 37 C.F.R. § 1.47(d).

APPLICATION, PURSUANT TO 37 C.F.R. §1.48(a)**

The Government of the United States of America, as Represented by the Secretary, Department of Health and Human Services, National Institutes of Health, Office of Technology Transfer, is assignee of the above-referenced patent application, as evidenced by the attached copy of an Assignment from JAY A. BERZOFSKY, PABLO SAROBE, C. DAVID PENDLETON, STEPHEN M. FEINSTONE AND MARIAN E. MAJOR to the Government of the United States of America, as represented by the Secretary, Department of Health and Human Services, Office of Technology Transfer, which Assignment has been recorded with the U.S. Patent and Trademark Office at Reel/Frame 011933/0515 on June 28, 2001.

As a representative authorized to act on behalf of the assignee, I hereby provide consent for correction of inventorship in the above-referenced application to delete Charles D. Pendleton and Tatsumi Arichi as co-inventors. I further certify that I am authorized to sign this document on behalf of the assignee.

 104 05/21/02 DECISION  
 new 5/24/02 REQUEST UNDER  
 37 CFR 1.497(d)

This is a decision on "Renewed Petition Under 37 C.F.R. §1.497(d)," filed 17 April 2002.

### BACKGROUND

On 17 August 1999, applicants filed international application PCT/US99/18674, which claimed a priority date of 21 August 1998. A copy of the international application was communicated to the United States Patent and Trademark Office (USPTO) from the International Bureau on 02 March 2000. On 17 February 2000, applicants filed a demand for international preliminary examination which elected the United States, prior to nineteen months from the priority date. The deadline for entry into the national stage in the United States was midnight 21 February 2001.

On 20 February 2001, applicants filed a submission for entry into the national stage in the United States, which was accompanied by, *inter alia*, the U.S. Basic National Fee and a declaration executed by five inventors.

On 21 May 2001, the Office mailed, *inter alia*, a Notification of Missing Requirements (Form PCT/DO/EO/905) and a Notification of a Defective Oath or Declaration (Form PCT/DO/EO/917) indicating, *inter alia*, that the declaration was defective because it did not properly identify the inventors.

On 19 October 2001, applicants filed "Response to Notification of Missing Requirements," including, *inter alia*, the request and a declaration executed by four inventors.

On 20 February 2002, the Office mailed Decision On Petition Under 37 CFR 1.497(d), refusing applicants' request for failure to provide written consent of the assignee.

On 17 April 2002, applicants submitted "Renewed Petition Under 37 C.F.R. §1.497(d)," accompanied by, *inter alia*, copies of assignments and a new consent of the assignee.

### DISCUSSION

A request under 37 CFR 1.497(d) requires: (1) a statement from each person being added as an inventor and from each person being deleted as an inventor that any error in inventorship in the international application occurred without deceptive intention on his or her part; (2) the processing fee set forth in §1.17(i); and (3) the written consent of the assignee, if an original named inventor has executed an assignment.

Items (1) and (2) were previously met.

Item (3) has now been met. Applicants have provided copies of the assignments and a new written consent from the assignee, the United States government. Jack Spiegel signed on behalf of the government and indicated that he has the authority to do so.

### CONCLUSION

For the above reasons, applicants' request under 37 CFR 1.497(d) is GRANTED.

The application has an international filing date of 17 August 1999 under 35 U.S.C. §363 and a date of 19 October 2001 under 35 U.S.C. §371. This application is being forwarded to the National Stage Processing Division of the Office of the PCT Operations for continued processing.
